

The Geochemist's Workbench INSTALLATION INSTRUCTIONS

Revised: 6/8/2011

The Geochemist's Workbench

The Geochemist's Workbench software (water geochemistry analysis) is available on a checkout and return basis. There are limited copies of single user licenses, and the CD must be sent directly to you and returned when your project is completed. It is NOT available via KeyServer. A specified period of use will be determined which may be extended depending on the demand for copies of the software. For further information and to arrange to check out a copy, please contact Brent Means at bmeans@osmre.gov or (717) 782-4080 ext. 18.
