**Note: Since we downloaded put our information previously we do not need to do it again.**

- Your download should start. Depending on your browser settings the download may be placed in a default location such as “downloads”, other browsers might prompt you for a location to download the software.

**Patches and other available downloads are located at this location. Check back for patches and service packs. Additionally these instructions only cover what is needed to get Erdas 2015 downloaded. Foundation includes the Licensing tool so there is no need to download this seperatly. The example data and the Global DEM can also be downloaded and placed on your harddrive for use. To do this please follow the vendors instructions under the download for these products.**

**In rare cases ERDAS IMAGINE 2015 Geodatabase Support will need to be installed. This will need to be done prior to Step 5. If you do not have ArcGIS installed and wish to connect to an ESRI Geodatabase, install this product which can be downloaded from <http://download.intergraph.com/downloads/erdas-imagine-2015-geodatabase-support> . Accept all defaults during installation. You do not needed it install this product if ArcGIS is installed.**
