

Global Mapper for Mining and Reclamation

This course provides users instruction on basic and advanced usage of Global Mapper as it pertains to mining and reclamation. Students will be introduced to the GIS, CAD, mobile computing and remote sensing functionality of Global Mapper, as well as basic understanding of each discipline to assist them in analysis. Students will work with various forms of geospatial data to generate end products.

Duration: 3 days
Course Code: GGM

TOPICS COVERED

Course Objective

- ▼ Provide students a clear understanding of use of geospatial data in Global Mapper

WHO SHOULD ATTEND: All disciplines that work with geospatial data.

COURSE PRE-REQUISITES: None. **Class size limited to 12-17 students, depending on location.**
